COMMERCIAL NEWS

U. S. IS DIVIDED INTO TWO SUGAR PRICE ZONES BEGINNING OCTOBER 1

NEW YORK, N. Y., Sept. 27.—Sta-
tistics by Special Cables—Cuba.—The
entire island.

Receipts, 11,863 tons, against 13,393
tons last week, 789 tons last year and
7338 tons in 1915.

Exports, 12,613 tons; stock, 132,
845 tons, against last year 319,747
tons.

Centrals, grinding, estimated, 31
against, estimated, 3 last week, 1 last
year and 1 in 1915.

Stocks in the United States and Cu-
ba together of 200,000 tons, against
216,878 tons last week and 432,807
tons last year, a decrease of 290,317
tons from last year.

Raw.—With the exception of a sale
of 17,000 bags of Cubas prompt ship-
ment to operators at 6c c. & f., rais-
ing the market quotation to 7.02c, the
week has been devoid of interest.

The refiners, at the request of the
food administration, have refrained
from buying, but operators who sold
sugars to refiners against options on
the sugar exchange, have apparently
been allowed to transact business to
close these outstanding contracts.

However, as we go to press, an official
announcement dated September
26th, given herewith, by the interna-
tional sugar committee, apparently al-
lows refiners to renew the purchase
of raw sugar, but that their total
stock of raws at the refinery must
not exceed 10 days' supply.

Under the above conditions a sale
is reported of 5000 bags prompt Cu-
bas at 5 7/8c c. & f. (6.90c) to Warner,
which we now give as the market quo-
tation.

Canadian refiners bought Cubas last
week at 5 7/8c c. & f. (6.90c) to a mod-
erate extent.

The exports from Cuba this week
were only 3990 tons, but this small
quantity is accounted for by the prac-
tical stoppage of business in Cuba
at the request of the U. S. govern-
ment.

Refined.—The only change reported
during the week was a withdrawal
from the market on Wednesday.
Other refiners still quote 8.40c
except Arbuckle 8.50c, with a mod-
erate business doing from day to day.

Indications do not point to any im-
mediate change here although all
Western cane and beet interests have
officially announced a price of 7.25c
after October 1st, effective territory
west of Chicago and St. Louis and
as fully covered by the government
announcement herewith.

There is nothing new to report in
the export situation. The food ad-
ministration is allowing the shipment
of old orders for Allied countries, but
practically nothing is going through
for neutrals.

The international sugar committee

has secured headquarters in the new
building at 111 Wall Street. It is ex-
pected that actual possession will be
taken within the next week or ten
days. Under date of September 26th
it issued the following suggestion to
all United States refiners:

"The international sugar committee
suggests that until further notice
United States refiners do not attempt
to keep on hand at their respective
refineries more than a 10 days' supply
of raw sugar."

An anomaly will exist in the sugar
trade after the first of October. The
country temporarily will be divided in-
to two price zones. California beet
started in August and the factories
are now in the middle of their cam-
paign. The Colorado and Michigan
factories will not begin operation un-
til about the 10th of October and up
to that time California is supplying
the entire beet from Chicago and St.
Louis, west. The cane refiners on
the Pacific coast will join with the
beet factories and make a voluntary
price of 7.25c cane basis, October 1st,
f.o.b., seaboard points, and have suf-
ficient cane, judiciously handled, to
meet requirements of the trade from
Chicago, St. Louis and west; therefore,
there will be a line drawn north and
south throughout the United States,
on one side of which beet and cane
will both be selling on a 7.25c basis,
freights added, and on the other side
cane selling on an 8.40c basis with no
beet competition. As the volume of
beet output increases it will gradu-
ally reach east beyond the Chicago-
St. Louis line, and probably sometime
during the month of November will
reach the Atlantic seaboard on a
7.25c basis seaboard figure. The
amount of cane in the east is suf-
ficient, together with the beet which
will gradually work in, to take care
of the entire Eastern section of the
country until the new Cuban crop ap-
pears in December, especially as Lou-
isiana sugars will come in to fill any
gap. Following this brief period the
expectation is that all cane refiners
and beet plants in the United States
will be on a 7.25c seaboard cane basis.

There is no cause for excitement
during this period of readjustment,
and as prices in the east will gradually
take a downward tendency until they
reach the 7.25c basis, people in this
section, in fact all sections of the
country, should buy sugars only as
required. This will aid the govern-
ment by allowing larger exports for
our Allies.

In the intermediate zone where the
two different prices meet there is
bound to be more or less confusion as
to what prices shall be charged to
the retail trade. In this district job-
bers and distributors are asked to
cooperate with the food administra-
tion in keeping the disturbance to the
lowest possible ebb. Consumers also
are requested to be patient during the
period of price adjustment, for it will
last but a short time, as uniform
prices for cane and for beet sugar
will be established just as soon as
the new cane crops from Louisiana,
Cuba and Porto Rico begin to move.

Jobbers and dealers will be required
by the food administration to sell
the sugars on the basis of cost to
them with a reasonable margin of
profit added.

Kaimuki tract yesterday became Kai-
muki park and the property of the
city and county of Honolulu when
Deputy Auditor James W. Lloyd
turned over a warrant for \$12,000 and
received the deed for the property
from Thomas Hollinger, City Treas-
urer. D. L. Conkling yesterday se-
cured the money voted by the 1917
legislature for the park from the ter-
ritorial treasurer and is now waiting
to cash the warrant issued by the
city auditor.

"I SHOULD WORRY
NOW ABOUT CORNS!"
They Peel Off With "Gets-It."

Two corns are no worse than one,
and one is nothing at all—when you
use "Gets-It," the one real corn-
shriner, corn loosener, peel-it-
right-off corn-remover. That's be-

cause two drops of "Gets-It" ease
your corn-pains at once, and you
know that that old corn has been
"nipped in the bud." "Gets-It" makes
cutting and digging at a corn and fus-
sing with bandages, salves or anything
else entirely unnecessary. Remember
"Gets-It" is safe.

You'll not have to take off your shoe
or pump under the table at the
table to ease your squirming soul. See that
you get "Gets-It." Don't be insulted
by imitations. 25c is all you need pay
at any drug store for "Gets-It," or it
will be sent direct by E. Lawrence
& Co., Chicago, Ill.

Sold in Honolulu and recommended
as the world's best corn remedy by
Benson, Smith & Co., Cor. Fort and
Hotel Sts., and Hollister Drug Com-
pany.

FRANKLIN WRITES PLANS FOR HONOLULU FEDERAL BUILDING SATISFACTORY

Rough sketches of the proposed Ho-
nolulu federal building seen by Collec-
tor of Customs Malcolm Franklin, who
was called to Washington for a con-
ference with federal officials regard-
ing the building, are declared to have
been very satisfactory. This state-
ment is made in a letter which the
Honolulu collector has written to Act-
ing Collector Raymer Sharp.

The letter was written from Bridge-
port, Conn., where Mr. Franklin is
visiting an old friend, who is also a
collector of customs.

"Washington was war mad," Collec-
tor Franklin writes of his visit to the
national capital. Due to this, he did
not have an opportunity to get a num-
ber of matters about the Honolulu
customs office attended to, but is to
return there early next week for an-
other conference.

He was ordered by the national
treasury to go to New York and con-
fer with York & Sawyer, architects,
who are drawing the plans for the
Honolulu federal building. It was dur-
ing this conference that he saw the
initial plans for the building.

**Some Will Offer Their Lives—
Others Will Loan Their Money
to Their Country**

As compared with that of the men at the front
the lot of most of our citizens is an easy one.
The least that you can do is to subscribe to the
LIBERTY LOAN OF 1917, which must be made
an overwhelming success!
By subscribing to this loan you will be doing
your duty as a citizen and your money will be
invested in the safest security in the world.
Your interest return will be satisfactory—4 per
cent.
Subscriptions of at least \$50 should be received
from everyone.
Protect your country, your family, yourself!
ACT TODAY!
BANK OF HAWAII, Ltd.

A Liberty Bond In Every Home

Enlist Your Dollars in the War
In this time of our country's crisis an idle dollar
is as much a "slacker" as an idle man! Are your
dollars doing their duty?
"The Liberty Loan of 1917" invites the im-
mediate response of the American people. Every
dollar subscribed will help make it a success. The
quicker the better.
Armies of dollars are an absolute necessity for national de-
fense. Unless the dollars at home stand back of them, the
soldiers in the field cannot do their utmost to protect our
households and our freedom.
We Will Count it a Privilege
to Enter Your Subscription.

GRAPHILATUM

The perfect roof coating or paint

GUARANTEED for a period of 5 years to

Stop Leaks
Prevent Rust
Prevent Rotting

tin
iron
shingle
paper
gravel
composition
rubber

Scientifically made from a coal tar base, GRAPHILATUM has the damp-
proof qualities of rubber. Does not crack; excellent for brick, stone, concrete,
wood and underground work of all kinds. Also for bridges, culverts, tanks, tele-
phone, telegraph and fence posts.

Resists heat and cold, hence the most satisfactory preparation for painting
boilers, smoke stacks, ice molds, ice boxes, etc.

Graphilatium Special

A HOT SURFACE PAINT

Retains gloss and will not scale
or blister—will stand heat of 700 de-
grees Fahrenheit—made expressly
for locomotives, furnaces, stovepipes,
boiler fronts, smoke stacks, hot water
pipes, heaters, electric generators, hot
surfaces of every description.

Graphilatium Cement

for plugging holes, open seams and
cracks in roofs, flashings, skylights,
basements, boat hulls, tanks, etc. In
paste or liquid form.

These preparations will help you save
